Project Name	Personalized Networking Assistant
Maximum Marks	3 Marks

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	Yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	NA
5	Environment configuration file (.env.example or similar)	Yes
6	Deployed application URL (if hosted)	NA
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA

8	Dockerfile / Containerization config (if applicable)	No
9	Test files and test results	Yes
10	Demo video or walkthrough (if required)	Yes

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

Personalized-Networking-Assistant-Project/

```

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	Not Deployed(Runs on Local Machine)
Login Credentials (Demo)	Not Required
Platform / Hosting Provider	Local Machine
Repository Link	https://github.com/srivarshinibaddireddy78-jpg/Personalized-Networking-Assistant-Project.git
Demo Video Link	Available in GitHub Repository

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

Prerequisites

Python 3.10 or above

Git

Visual Studio Code

Internet connection (for AI APIs)

Steps

1. Clone the repository:

git clone <https://github.com/srivarshinibaddireddy78-jpg/GEN-AI-Internship-Personalized-Networking-Assistant-Project.git>

2. Open the project folder in Visual Studio Code.

3. Install the required packages:

```
pip install -r requirements.txt
```

4. Start the FastAPI backend:

```
uvicorn app.main:app --reload
```

5. Start the Streamlit frontend:

```
streamlit run frontend/streamlit_app.py
```

6. Open the application in your browser:

Frontend: <http://localhost:8501>

API Docs: <http://127.0.0.1:8000/docs>

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
------	--------------------------	---------------------

1	Internet connection is required for AI features.	Ensure a stable internet connection.
2	API response may take a few seconds.	Wait until processing is complete.
3	Designed for demonstration purposes.	Future versions will include deployment and more features.
